ROBBERS.

A Bank Cashier Roused Out of Bed By Thieves.

FORCED TO GO TO THE BANK.

The Cash Handed Out and "A Revolt"—Other Bold Thieves' Chloroform a Wealthy Citizen and Strip His Premises of the Loot.

DAKOTA CITY, Neb., Nov. 2.—A courier reached here this morning at 5 o'clock and notified Sheriff Ryan that the House state bank had been robbed a few hours previously by the boldest outlawry ever known in this section.

The bank is the property of the Fidelity Loan & Trust Co., of Sioux City, Ia., and Herman Freeze is the cashier and only employee. He lives four blocks from the bank building and was at home alone.

About 1 o'clock this morning Freeze was awakened by some one knocking on the door. When he answered the call he was met by two masked men with drawn revolvers who demanded that he go with them to the bank. This he was forced to do.

Arriving there the men demanded that the safe be opened and the cash turned over. This Freeze was compelled to do. Before doing this they gagged Freeze with a handkerchief, which prevented him giving an alarm.

There was in the safe \$1,600 in cash, all of which was taken.

The robbers then took the cashier to the door and, tying his hands behind his back, fastened him to the door lock, and, bidding him good evening, disappeared in the darkness.

Freeze soon freed himself and gave the alarm, but up to the present time no clue has been found.

The cashier claims that he can identify the robbers, but as they have had a good scope of territory to travel in, their capture is doubtful.

THIEVES IN NEW HAMPSHIRE. PORTSMOUTH, N. H., Nov. 2.—One of the boldest robberies ever perpetrated in this city occurred yesterday morning, between the hours of 1 and 4, when the house on Market street occupied by George Scott, vice-president of the Portsmouth Brewing Co., was entered and robbed.

The entrance was effected through a rear window and the thief proceeded to the room occupied by Mr. Scott and wife, and after removing all Mr. Scott's clothing chloroformed Mr. and Mrs. Scott.

The pockets of the clothing were rifled, the key to the safe and a gold watch and chain valued at \$400 were taken and a diamond pin valued at \$150 was removed from the key to the safe.

After securing the key to the safe the thief proceeded to the lower story, where the safe is kept, opened and rifled it, securing between \$4,000 and \$5,000 in money, several articles of jewelry, bank books, notes and private papers. The total value of the money and negotiable articles taken will amount to nearly \$7,000.

SEEKING OLD SORES.

California Forty-Niners Credited With Causing the Anxiety of Chileans.

CHICAGO, Nov. 2.—Ramon Estudillo, of Chicago, says: "We people of Spanish blood are pretty much alike, and I think I understand the situation better than a man of English descent naturally would. Do you know why the Chileans hate the Americans? It is not the result of the Ista incident. It is not due to the proffer of this government to bring about peace between Chile and Peru under the Garfield administration. Those incidents merely aggravated the feeling. It dates far back of that. It goes back to the time of the discovery of gold in California. There was a great demand for provisions in San Francisco at that time. California was not then the great wheat producing state which it is to-day, and flour was imported from Chili in large quantities. This, of course, brought San Francisco and Valparaiso into comparative close communication, and several thousand Chileans went to the newly discovered gold fields. It was just after the war with Mexico and the cessation of that immense stretch of country which made quite a number of our Spanish speaking people American citizens. There was something of a bitter feeling at the result of the war. The native Californians looked upon the pioneers as intruders and the foreigners despised them as 'greasers.' Quite a number of the native Californians became outlaws, like Joaquin Murietta, and many murders and robberies were committed. Mexicans and native Californians felt the retaliation of the Americans. To them all Spanish speaking people were alike, so Chilean miners suffered along with the Mexicans. Quite a number of Chileans were murdered and robbed by American miners and they resented it intensely that many of the Chilean miners returned to their own land. They took back with them the story of their inhospitable reception, and the nation has smarted under what it deemed the wrongs to its subjects ever since. The average Chilean hates the American bitterly, and this is one reason for it."

To Release Old Sins. CHATTANOOGA, Tenn., Nov. 2.—A rumor is current here to the effect that a secret understanding exists between the miners throughout the state to liberate all convicts working the mines. In consequence it is thought the next move will be on Oliver Springs, Tracy City and Inman, where convicts are employed. No further outbreaks have occurred at Briceville and the miners resumed work Saturday morning. The convicts are scattered, the majority fleeing to the mountains of Kentucky. The total number of convicts released exceeds 300.

Electric Horror. PANAMA, Oct. 2.—The driver of a cab was instantly killed and his head literally burned to ashes by contact with an electric light wire here last night. The man's horse was also killed.

Clippings. A young woman, who manages a farm of 100 acres near Shelbyville, Ind., was arrested and taken to town on the affidavit of three men that they were afraid she would kill them because suits had been instituted against her on notes that she had signed, but when the case was called not one of them dared to appear against her and she was discharged.

Every engaged girl should remember in her attitude toward the man that there may be a time when he may be engaged to some other girl, and she to some other man.

CHILI'S REPLY.

Text of the Chilean Government's Reply to the Demands of the United States For Reparation For the Valparaiso Attack.

WASHINGTON, Oct. 30.—A cipher cablegram from Minister Egan was received by the state department yesterday morning but it was nearly noon before it could be laid before the president.

An hour afterward messengers were dispatched to Secretary Blaine and Secretary Tracy requesting their presence at the White house. The secretaries promptly responded. Mr. Blaine from his home, and Secretary Tracy from the navy department.

Soon after 6 o'clock an official statement of the contents of Minister Egan's dispatch was made public as follows: "The department of state received this morning a telegram from Minister Egan, dated Santiago, October 28, in which he gives the following as the reply of the Chilean government to the

Text of the Chilean Government's Reply to the Demands of the United States For Reparation For the Valparaiso Attack.

WASHINGTON, Oct. 31.—Delegates from Barbados and Trinidad, the two most important of the British West Indies, are expected here shortly to confer with Sir Julian Pauncefote and the state department. The aggregate foreign trade of the British West Indies is \$1,702,111, of which Barbados and Trinidad have \$32,311,572. These are the figures for 1890, the latest which have been compiled by the bureau of statistics of the treasury department.

The trade of these two islands with the United States, however, is less than with Great Britain, and the American exports to them are considerably smaller than the imports from them.

Secretary Blaine and Mr. Foster hope to remedy this state of things by a reciprocity agreement which will open the markets of the islands on favorable terms to this country's products. The countries with which treaties will be especially sought in addition to those already made are Mexico, Venezuela, Colombia and Peru. Negotiations with Mexico are going on at the Mexican capital between the United States minister, Mr. Ryan, and a special delegate appointed by the Mexican government for this purpose, Senor Jose Ives Limantour, and he is expected in Washington early in the winter to talk with Secretary Blaine and with Senor Romero, the Mexican minister. If a treaty is made with Mexico it will be outside the limits of the McKinley bill, for Mexico does not export enough sugar, coffee or hides to justify opening her markets to American commerce.

There is a return for the placing of those articles on the free list.

Treaties will probably be made with Venezuela and Colombia upon the ground of their large exports of coffee to this country. The government of Venezuela was the first to propose reciprocity after the passage of the McKinley bill, but a final agreement has been delayed by the promptness of Minister Perten accepting the first proposition of the state department, which went a good deal further than the Venezuelan government was ready to go.

Mr. Blaine expected them to go to Mr. Blaine's representative to Venezuela, now in Washington, and will take back to Venezuela modified propositions which will probably be promptly accepted. The negotiations with Colombia are in charge of Minister Abbott, its government's representative in the Colombian capital, and he is hopeful of satisfactory results. This country's trade with Peru is not important either in imports or exports, but ex-Mayor Grace, of New York, and some other gentlemen having business interests in Peru are trying to arrange a treaty which may be of some benefit.

There is no prospect of a treaty with the Argentine republic, for her treasury is depleted, and she probably would not suffer seriously if she lost the trade with the United States. She sends only \$3,441,202 in hides and skins to this country, while sending \$13,890,185 to France, \$4,131,037 to Belgium, \$1,954,094 to Germany, \$1,818,338 to Italy, \$1,058,741 to Spain and \$978,633 to Great Britain.

HAVOC BY FIRES.

Lands in Kansas and Nebraska Ravaged By Fires.

KANSAS CITY, Mo., Oct. 30.—The following dispatch was received this afternoon: "Lawyer Willard Bone, who has just arrived from the western part of the state, reports terrible prairie fires in Gray and Ford counties. For miles the Santa Fe train, on which he was a passenger, traveled at its utmost speed through a sea of flame, with every window and ventilator flattened down. From the train could be seen burning farm buildings and stacks of grain and hay, and people and stock fleeing before the flames."

Mr. Bone says there must have been a number of human lives and many head of stock lost in the vicinity of Beaumont, Butler county. Thousands of acres of grazing land were burned over last night, fences destroyed and stock burned or scattered in all directions.

The following dispatch was later received from Omaha: "Great damage has been done in the last two days and nights by an immense prairie fire which has swept over the country south and west of Arnold and Gandy in Lincoln, Logan and Custer counties. Thousands of tons of hay have been destroyed and many farmers who had not yet threshed their grain in the stack have lost their entire crop. Another prairie fire swept over the Wood river valley last night, near Olax, doing serious damage. It has entirely destroyed the Kenec ranch and two farm houses, and burned crops and some stock."
